Plant-to-Plant Haul Survey

This hauling survey is for pounds of fluid products hauled by area of receipt. Fluid product haul charges generally are for whole milk, skim milk, condensed milk and cream, etc. The survey targets milk moving from plant-to-plant and was conducted for select time periods, January 2001 to October 2006. The published plant-to-plant haul rates represent the cost to ship a hundred pounds of product, including stop charges and surcharges.
